The Board has eight standing committees. Each of these committees is comprised of at least two Board members and staff, who provide technical and administrative input and support. The Board Chair designates one member of each committee as the committee's chairperson. The chairperson coordinates the committee's work, ensures progress toward the Board's priorities, and presents reports at each meeting.

Continuing Education Committee

The Committee recommends regulations for mandatory continuing education and overseeing the Continuing Education Program, which includes program administration, continuing education providers' evaluation, waiver requests review, and conducting regular at-random and continuing education audits.

Enforcement Committee

The Committee proposes regulations, policies, and standards to ensure compliance with chiropractic law and regulations. The Committee continuously seeks ways to improve the Board's enforcement activities.

Government Relations Committee

The Committee continually reviews policies, procedures, budget, personnel, accounting, and departmental issues. The Committee proposes polices to address audit and Sunset review deficiencies.

Legislative/Regulation Committee

The Committee proposes regulations that enhance the Board's role as a regulatory agency that protects the public. The committee reviews and recommend positions on bills that affect the Board.

Licensing Committee:

The Committee proposes policies and standards regarding chiropractic colleges, doctors of chiropractic, and satellite offices.

Public Relations:

The Committee develops strategies to communicate with the public through various forms of media.

Scope of Practice:

The Committee reviews and proposes positions on scope of practice issues.

Strategic Planning:

The Committee develops draft strategic plans and monitors the Board's progress in achieving goal and objectives.
